# IMPROVING LONG-TERM DIGITAL PRESERVATION

The aim of the workshop is to demonstrate the **conformance checkers for file-formats** developed in the project, involve memory institutions outside the PREFORMA consortium in testing, using and further developing the software, and share the experience gained by PREFORMA memory institutions working with developers under R&D service agreements.

Hosted at the Kulturforum in Berlin, the event will feature keynote presentations by international experts in digital preservation on the importance of checking the conformance of the digital files against the standard specifications and on the opportunities offered in this field by the Pre-Commercial Procurement instrument, live demonstrations of the software developed by the three suppliers (the veraPDF consortium, Easy Innova, MediaArea) and an informal networking event where the attendees can share experiences, meet the PREFORMA developers and learn about the tools.

The workshop is co-located with Europeana Space final conference, the third Networking Session for EC projects in the cultural heritage field and the meeting of the German Working Group on Pre-Commercial Procurement and Public Procurement of Innovative solutions.

REGISTRATION DEADLINE: 16 NOVEMBER 2016  
THE EVENT IS FREE OF CHARGE
